This class is for artists who have some (even just a little...) experience with pastels, and would like to continue pastel exploration using their own basic set of pastels, as well as working on your own projects, though Malia will also provide some reference photos and some ideas to work from.

The monthly workshops will focus on different exercises and techniques in this medium and will help each student reach and exceed their pastel painting goals. You don't have to sign-up for the entire series, choose the dates you like.

As always, the emphasis on having fun and experimenting in a relaxed atmosphere. The class is for beginning artists, or for experienced artist who want to learn more about this medium.

We will take a short break for lunch. Bring your own lunch or visit one of Concord's downtown restaurants.
