Time: 10:00am – 4pm

Cost: 5 Lessons - \$150*

Single Lesson: \$40

Supply Kit - \$25 (Payable to instructor)

From beginners to advanced artist, there's something for everyone in this drawing workshop. It's for anyone who wants to improve their drawing skills. Whatever your media preference; oil, acrylics, watercolor, pen and ink, pastels, or even crayons, the better your drawing, the better your results.

The lessons are designed to build your drawing skills from basic to drawing animals and people. Each lesson focuses on a specific topic, you can take one, or all five. To build a solid base of drawing skills, we recommend all five.

Lesson 1: The basics, using lines to create movement and style. Defining how you personally perceive art. Learning to express what you see, think and feel *and* get it onto paper.

Lesson 2: Using gesture and contour drawing techniques to capture movement of the subject. Helps you move from "flat" to three-dimensional drawings. Trains your eye and hand to work together.

Lesson 3: Creating a value scale, from 1 to 10. Defining how value is used to create dimension. Understanding how perspective and overlapping perspective is used in a composition.

Lesson 4: Drawing a still life by first creating a contour drawing, then developing the composition by use of shading, perspective, value and scale.

Lesson 5: Defines the importance of proportion and perspective in both the human body and animals. Learning to find the basic shapes, alignment of features to others, and the proportions of the parts to the whole.

O'Lynda will first show you how to use these techniques, then give you time to practice. One-on-one attention and advice is yours from an instructor with many years of drawing experience.

Supply Kit - \$25 (Everything You Need - Includes)

Set of drawing pencils, erasers, sharpener, pad of drawing paper, Conte crayon, etc. Instructor will provide additional drawing papers and easels and boards for students.

Student Provides: Sketch book (Walmart has a good selection from \$6 to \$8.)
